SUPERCEDES BWV-0913

ASTM D 2661
 ASTM D 2665
 ASME A 112.14.1

- 2 Made of ABS and PVC materials which will not pit or corrode
- 2 Designed with smooth walls and rounded corners to prevent accumulation of solid waste
- 2 Used in drainage systems where a flood risk exists due to sewer surcharge, back-ups or failures
- 2 Intended for use with piping systems running horizontally downstream of drainage fixtures
- 2 Installed in drainage fixtures on the lowest floor, used with laundry tubs, washing machines, dishwashers and floor drains
