

***California Prop 65 Safe Harbor Warning Requirements**

Dear Customer:

New regulations under California's Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as "Prop 65," become operative on August 30, 2018.

Because there is not a practical way to label each product with a "Prop 65 Safe Harbor Warning", sales of our products to California customers will need to provide a point-of-sale warning for products that require warnings. These point-of-sale warnings are necessary for our CPVC, ABS-DWV, PPSU PEX, BRASS PEX and BRASS CPVC products.

Attached with this advisory are point-of-sale warnings that should be printed and placed near the register at your California outlets. You should ensure that the signs are visible to customers.

SPECIAL NOTE FOR INTERNET/WEBSITE SALES TO CALIFORNIA CUSTOMERS:

If any products will be sold on your website, please include the applicable warnings as indicated in the succeeding Internet Website Warnings pages.

Point-of-Sale / In-Person Warnings

- These warnings should be placed close to each sales register, in a manner where they are likely to be seen, read, and understood by an ordinary individual under customary conditions of purchase or use.
- The signs should be no smaller than 5-by-5 inches, printed in no smaller than 20-point type.
- If non-Prop 65 signs are provided in languages other than English, then these Prop 65 signs should also be translated into those languages.

CPVC Pipes and Fittings

WARNING: This product can expose you to chemicals including Titanium Dioxide which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov

ABS-DWV Pipes
